Nine sessions, one capstone

1. **The AI landscape and advanced prompting**
2. **Code generation and review**
3. **Presenting your work with AI**
4. **Custom assistants, guardrails, capstone lock-in**
5. **Retrieval-augmented generation (RAG)**
6. **Agents, human in the loop, bias**
7. **Vibe coding and rapid prototyping**
8. **Finalizing the capstone, governance audit**
9. **Capstone presentation and failure defense**
